

Diego Marino Fages

46 Salisbury Street
Nottingham, NG9 2EQ

Phone: + (44) 77 32806771
Email: diegomarinofages@gmail.com
Skype: diego.marino.fages
Citizenship: Argentina, Italy

Employment

Teaching Associate, University of Nottingham (2022-2023)

Education

PhD Economics, University of Nottingham. Expected 2022.

Supervisors: Facundo Albornoz, Simon Gächter, Devesh Rustagi

Visiting PhD student, Universidad Carlos III, Madrid. January 2021 - May 2022.

Host: Antonio Cabrales

M.A. Economics, Duke University, 2017.

M.A. Economics, Universidad de San Andres, 2013.

B.S. Economics, Universidad Nacional del Nordeste, 2013.

Research interests: Applied Micro, Experimental Economics, Social Preferences, Cooperation.

Teaching

University of Nottingham (UoN): Microeconomic Theory, Mathematical Economics and Econometrics, Growth and Development, Foundations of Economics, Labour Economics, Behavioural and Experimental Economics.

Teaching Excellence Award, University of Nottingham (2019,2021).

Nottingham Trent University: Economics and Data Analysis for Managers.

University of Nottingham International College: Economics, Statistics, Mathematics. Pre-graduate level.

Universidad de San Andrés (UdeSA): Behavioral Economics, Econometrics, Introductory Economics, Labour Economics (graduate and postgraduate level).

Universidad Torcuato di Tella (UTDT): Econometrics.

Universidad Nacional del Nordeste (UNNE): Econometrics, Economic History, Statistics II.

Publications

Migration and Social Preferences. *Economics Letters*, 110773, 2022. (with Matias Morales Cerda)

Write better, publish better. *Scientometrics*, 122(3), 1671-1681, 2020.

The Effects of Emergency Housing on Wellbeing: Evidence from Argentina's Informal Settlements. *The European Journal of Development Research*, 31(3), 504-529. 2019. (with Ann Mitchell and Jimena Maccio)

Working Papers

Migration and Social Preferences. Available at SSRN 4070550. (with Matias Morales) (RR Economics Letters, resubmitted)

Anti-immigrant sentiment is frequently motivated by the idea that migrants are a threat to the host country's culture (Rapoport et al., 2020). We contribute to the discussion by investigating whether or not migrants adapt their social preferences (SPs) to those prevalent in their host country. Relying on a global and experimentally validated survey we show that migrants' preferences strongly correlate with their host population's SPs and provide suggestive evidence of a causal relationship in line with the assimilation hypothesis.

Strategy method in different group sizes with Simon Gächter

An established fact in the public goods literature is that contributions with the number of rounds. There is also evidence that this decay is stronger in smaller groups (Diederich, 2016; Isaac et al 1994). In our experiment, we intend to contribute to the literature in two fronts. At a methodological level, we adjust the strategy method to consistently estimate types in different group sizes. In a theoretical level, we would be able to disentangle the determinants of contributions (types and beliefs) in different group sizes and test whether larger groups can prevent the usual decay pattern.

Work in Progress

Migration and Trust: Evidence from Internal Migrants in Switzerland (JMP)

Beliefs in beauty contests with Simon Gächter and Patrick Maus

Hate Speech in Bolsonaro's Brazil with Agustina Matinez

Applied Econometrics using Stata with Ricardo Perez Truglia

Experience

Research assistant of Alex Possajenikov (2022), Maria Garcia-Vega (2021), Alejandro Graziano (2021), Valeria Rueda (2020), Devesh Rustagi (2021), Lina Song (2019), Facundo Albornoz (2018-2019) and Ricardo Perez Truglia (2015-2017).

Impact Evaluation analyst, Ministry of Production, Argentina, first semester of 2016.

Scholarships and Grants

Vice-Chancellor Scholarship for Research Excellence, University of Nottingham.

PhD Economics Scholarship School of Economics, University of Nottingham.

First Year PhD Scholarship, Duke University.

Grant for graduate thesis: Peer effects among high school students (2015), Center for Distributive, Labor and Social Studies (CEDLAS) and the International Development Research Centre (IDRC-Canada). US \$4,000. <http://www.cedlas-er.org/evaluation/47/grants-graduate-thesis>

Research Scholarship (2014-2015), Universidad Católica Argentina.

Master in Economics Scholarship (2013), Universidad de San Andrés.

Research Scholarship (2011), Consejo Interuniversitario Nacional.

Research Scholarship (2009 and 2011), Universidad Nacional del Nordeste.

Referee Work

European Economic Review, Journal of Economic Behavior and Organization (Excellent reviewer by Publons), Scientometrics, Annual Meeting of the Argentinean Association of Political Economy.

Other

Initiator and organizer of the behavioral workshop (2021-present).

Created a subject pool for online experiments in Argentina (2022).

Participant in the Multi100 Project, led by Balazs Aczel, Barnabas Szaszi, Gustav Nilsson, Felix Holzmeister, Livia Kosa, Eric-Jan Wagenmakers (2022).

Organizer of the CCC meeting (2021).

PhD Representative in the CEDEX management group (2020-2021).

PhD Representative in the facilities committee (2019-present).

Moderator in Econometric Society Winter Meeting 2020 (virtual).

Oxford Summer School in Networks (2019).

Presentations: Nottingham School of Economics (2019, 2020, 2021), CCC Meeting (2021), Universidad Católica Argentina (2021), University of East Anglia (2022), University of Copenhagen (2022).

Skills

Stata, Python, R, Qualtrics, z-Tree, LIONESS Lab.
